

Buffer Tube Fan-Out Kits

A LANscape® Solutions Product

Corning
Cable Systems

Applications

- Field termination of loose tube cables at indoor or outdoor cross-connects

Description

Corning Cable Systems Indoor and Outdoor Buffer Tube Fan-Out Kits are specifically designed for the termination of 6- and 12-fiber buffer tubes. These buffer tube fan-out kits provide the ultimate solution for those users who want to field-install connectors. The kits provide the most compact, easy-to-install fan-out solution requiring no additional hardware or space than that required for terminating tight-buffered cables.

Indoor and outdoor kits feature a 900 µm fan-out assembly that is color-coded to match the fiber color scheme. The fan-out assembly is available with 6- or 12-fiber units in lengths of 25 or 47 inches. These different lengths provide the installer the flexibility needed for a variety of hardware options.

Features / Benefits

- Eliminates strain on fibers by isolating them from tensile forces
- Colored fan-out tubing
- Snap-together furcation unit eliminates epoxy for indoor kits
- Compact design
- Quick and easy to install
- Optimized for field termination of cables
