Voice Cabling System Disconnect and Connection Modules

Features and Benefits

The Molex Voice Cabling system is expressly designed for voice circuits, such as block cabling and PBX inter connections. The Molex voice cabling system provides a complete range of products to facilitate a complete voice cabling system, including; termination modules, mounting frames, distribution boxes, tester interfaces and over-voltage protection.

The Voice Cabling system is compatible with other popular cabling systems enabling integration with legacy systems for expansion or refurbishment projects.

Both disconnect and connection type modules are available for all voice applications, markets and regulatory requirements. The modules accommodate up to 10 pairs in a small footprint, enabling high density interconnection facilities.
