771-9995/007-502

Item no. 771-9995/007-502

WINSTA® MIDI > pre-assembled interconnecting cable; Eca;
Socket/plug; 5-pole; Cod. A; H05VV-F 5G 2.5 mm²; 5 m; 2,50
mm²; white

Color:

Cable assembly **WINSTA® MIDI 5-pole**

The **WINSTA® MIDI** cable assembly rated current 20 A allows installation of fine-stranded and solid conductors. The pluggable installation connectors with spring pressure connection technology function without screw connections. They allow flexible, error-free installation in a large number of applications.

The coding options reduce installation errors, allowing fast, maintenance-free wiring of all components. The pluggable installation connector offers touch-proof protection with live components in accordance with protection type IP20. Thanks to the color coding and mechanical A coding of **WINSTA® MIDI** pluggable installation connectors, you can clearly distinguish different circuits. This pluggable installation connector can be employed for a voltage load of up to 20 A. Thus, it can also be used for high power loads. **WINSTA® MIDI** with Push-in **CAGE CLAMP®** spring pressure connection technology is used in a broad range of individual products you can use for quick, easy, secure, tailored electrical installation. Building safety must be ensured at all times, even after the electrical installation stage. The mandatory safety requirements in connection with EU CPR are fully satisfied by this product through fire class E.

Pluggable connections instead of screw connections – cable assemblies from WAGO

A socket and a plug are available. The WINSTA® Pluggable Connection System is ideally tailored to the strict requirements of building installation. It makes electrical installation pluggable, and thus faster, even more reliable, and error-free. Using this pre-assembled system decreases time spent on assembly and installation errors at the construction site. Now you can also lower installation expenses without compromising safety and quality. The WINSTA® MIDI pluggable installation connector with fire class E eliminates the need for servicing and prevents unnecessary downtime.

- protection against mismatching eliminates errors
- simple circuits
- with Acoding for a great number of applications
- flexible installation to save space
- quick replacement of defective units during ongoing operation
