

Item no. 771-9985/206-102

**WINSTA® MIDI** > pre-assembled connecting cable; Eca;  
 Plug/open-ended; 5-pole; Cod. I; H05VV-F 5G 1.5 mm<sup>2</sup>; 1 m;  
 1,50 mm<sup>2</sup>; blue

**Cable assembly WINSTA® MIDI I coding**

The WINSTA® MIDI cable assembly with protection against mismatching ensures rapid, correct installation. WAGO pluggable installation connectors can be used when requirements repeat or are planned on a specified pattern, for example for installing grid lighting or flush-mount lighting.

For greater security in electrical installations, the pluggable installation connector is equipped with mechanical protection against mismatching. The pluggable installation connector is protected against ingress by solid objects in accordance with protection type IP20. WINSTA® MIDI pluggable installation connectors with I coding in blue are especially suitable for intelligent, for instance for the dimming function of DALI lights. The WINSTA® MIDI Pluggable Connection System with Push-in CAGE CLAMP® spring pressure connection technology facilitates exemplary electrification. Thanks to the included test slot, connections can be checked even when they are plugged in. This saves time, labor, and money. According to the European CPR, the fire class of the cables used for construction is essential for building safety as well. For buildings with average safety requirements, cable assemblies with fire class E are suitable.

**Fast, error-free assembly thanks to cable assemblies from WAGO**

A plug and a free end are available. WINSTA® is the pluggable connection system that is ideally tailored to the strict requirements of electrical installation. It ensures error-free installation of cables and components, quickly and reliably. Take advantage of the pluggable version of our maintenance-free spring pressure connection technology too! Plan your installation with WINSTA® MIDI pluggable installation connectors with protection against mismating from WAGO.

- pluggable installation connectors with protection against mismating
- for automation controllers
- with I coding for use in the automation of buildings (lighting control)
- custom-engineered solutions
- quick replacement of defective units during ongoing operation
