

Item no. 771-9995/107-102

WINSTA® MIDI > pre-assembled connecting cable; Eca;
 Socket/open-ended; 5-pole; Cod. A; H05VV-F 5G 2.5 mm²; 1
 m; 2,50 mm²; white

Color:

Cable assembly **WINSTA® MIDI** with protection type **IP20**

The **WINSTA® MIDI** cable assembly 5-pole is the pluggable solution for your application in control cabinets, for lighting connections or on PCBs. Our pluggable installation connectors with spring pressure connection technology work completely without screw connections. They allow flexible, error-free installation in numerous possible uses.

For greater protection in electrical installations, the pluggable installation connector is provided with mechanical protection against mismating. The pluggable installation connector is protected in accordance with protection type IP20. This means that users' fingers will never come into contact with energised elements. Standard mains applications for almost any domain of use can be realised with **WINSTA® MIDI** pluggable installation connectors with A coding. This pluggable installation connector is used for electrical currents up to 20 A. Thus the product is ideally suitable for high power loads. The **WINSTA® MIDI** Pluggable Connection System with Push-in **CAGE CLAMP®** spring pressure connection technology facilitates safe electrification. Due to the integrated test slot, connections can be checked even when they are plugged in. This saves time, labor, and money. This product meets all the relevant safety requirements of fire class E; thus it can be used in domains where fire safety is

relevant.

Fast, error-free assembly thanks to cable assemblies from WAGO

The cable assembly is provided with a socket and a free end. The WINSTA® Pluggable Connection System is ideally tailored to the very strict requirements of building installation. It makes electrical installation pluggable, and therefore faster, more reliable, and error-free. Use of this pre-assembled system reduces assembly times and errors during installation at the construction site. Now you can also lower installation costs without compromising quality and safety: The WINSTA® MDI pluggable installation connector with fire class E reduces the need for servicing and prevents unnecessary downtime.

- effective protection against mismating
- pre-assembled versions
- for any mains application
- custom-engineered solutions
- rapid, structured electrical installation
