771-9995/007-102

Item no. 771-9995/007-102

**WINSTA® MIDI** > pre-assembled interconnecting cable; Eca;  
Socket/plug; 5-pole; Cod. A; H05VV-F 5G 2.5 mm<sup>2</sup>; 1 m; 2,50  
mm<sup>2</sup>; white

Color:

## Cable assembly **WINSTA® MIDI** rated current 20 A

The **WINSTA® MIDI** cable assembly rated current 20 A supports fast, reliable installation. The pluggable installation connectors with spring pressure connection technology function without screw connections. They allow resource-efficient, error-free installation in numerous possible uses.

The coding options reduce installation errors, allowing fast, maintenance-free wiring of all components. The pluggable installation connector is protected against ingress by solid objects in accordance with protection type IP20. Standard mains applications for almost any domain of use can be implemented with **WINSTA® MIDI** pluggable installation connectors with A coding. The rated current and voltage are important criteria for selecting a pluggable installation connector: They provide information about possible domains of use and applications. This product has a current rating of 20 A – as a result it is also suitable for powerful loads. **WINSTA® MIDI** with Push-in **CAGE CLAMP®** spring pressure connection technology is used in a broad range of individual products you can use for quick, easy, flexible, and secure electrical installation. Building safety must be ensured at all times, even after the electrical installation stage. The mandatory safety requirements in connection with EU CPR are met by this product through fire class E.

## Fast, error-free assembly thanks to cable assemblies from WAGO

The cable assembly is provided with a socket and a plug. The WINSTA® Pluggable Connection System is ideally tailored to the very strict requirements of building installation. It makes electrical installation pluggable, and therefore faster, even more reliable, and error-free. Using this pre-assembled system decreases time spent on assembly and errors during installation at the construction site. Now you can also lower installation costs without compromising safety and quality. The WINSTA® MIDI pluggable installation connector with protection type IP20 eliminates the need for servicing and prevents unnecessary downtime.

- effective protection against mismatching
- for automation controllers
- with A coding for use in many general mains applications
- flexible installation to save space
- rapid, structured electrical installation
