

Item no. 771-8965/007-202

**WINSTA® MIDI** > pre-assembled interconnecting cable; Eca;  
 Distribution connector with phase selection/plug; 5-pole; Cod.  
 A; H05VV-F 5G 2.5 mm<sup>2</sup>; 2 m; 2,50 mm<sup>2</sup>; white

Color:

## Cable assembly **WINSTA® MIDI 5-pole**

For power and signal transmission: The **WINSTA® MIDI** cable assembly 5-pole. WAGO pluggable installation connectors are useful when specifications repeat or are planned on a specified grid, for example for installing grid lighting or flush-mount lighting.

The mechanical coding and color coding of the pluggable installation connector ensure error-free installation of the individual components – including protection against mismatching. The pluggable installation connector is protected in accordance with protection type IP20. That results in the fact that users' fingers will never come into contact with live elements. The rated current and voltage are important criteria for selecting a pluggable installation connector: They tell us about the product's domains of use. This product has a current rating of 20 A – therefore it is also suitable for high power loads. The **WINSTA® MIDI** Pluggable Connection System with Push-in **CAGE CLAMP®** spring pressure connection technology facilitates precise electrification. Due to the included test slot, it is possible to check connections even when they are plugged in. That saves time and reduces installation labor and expense. This product meets all the relevant fire protection requirements of fire class E; thus it can be used in domains where fire safety is relevant.

## Fast, secure pluggable connections – cable assemblies from WAGO

The cable assembly is equipped with a distribution connector with phase selection and a plug. WINSTA® is the pluggable connection system that is optimally tailored to the strict requirements of electrical installation. It ensures error-free installation of cables and components, quickly and reliably. Choose durability and quality – the WINSTA® MIDI pluggable installation connector with protection against mismatching from WAGO makes the electrical installation of electrical components visibly easier.

- effective protection against mismatching
- pre-assembled versions
- flexible installation to save space
- fast, secure installation
