## Cable assembly **WINSTA® MIDI 5-pole**

For signal and power transmission: The **WINSTA® MIDI** cable assembly with protection type IP20. On PCBs, in control cabinets or for connecting lights – pluggable installation connectors from WAGO allow you to make connections according to various requirements in seconds.

For greater security in electrical installations, the pluggable installation connector is provided with mechanical protection against mismatching. The pluggable installation connector is protected against ingress by solid objects in accordance with protection type IP20. **WINSTA® MIDI** pluggable installation connectors with I coding in blue are particularly suitable for intelligent, for example for the dimming of DALI lights. **WINSTA® MIDI** with Push-in CAGE CLAMP® spring pressure connection technology is used in a broad range of individual products you can use for quick, easy and maximally flexible electrical installation. According to the European CPR, the fire class of the cables used in construction is essential for building safety, too. For houses with average safety requirements, cable assemblies with fire class E are suitable.

**Fast, error-free assembly thanks to cable assemblies from WAGO**

A plug and a free end are available. WNSTA® is the pluggable connection system that is ideally tailored to the strict requirements of electrical installation. It allows fast, secure and, above all, error-free installation of components and cables. Now you can also cut installation expenses without compromising quality and safety. The WNSTA® MIDI pluggable installation connector with marking eliminates the need for servicing and prevents unnecessary downtime.

- protection against mismatching eliminates errors
- pre-assembled versions
- with I coding for use in building automation (lighting control)
- exact dimensions
- rapid, structured electrical installation
