Item no. 770-1743

**WINSTA® MIDI** > T-distribution connector; 5-pole; Cod. B; 1 input; 2 outputs; 3 locking levers; for flying leads; pink

Color:

## Distribution connector **WINSTA® MIDI 5-pole**

The **WINSTA® MIDI** distribution connector rated current 25 A allows assembly of solid and fine-stranded conductors. Our pluggable installation connectors with spring pressure connection technology work without screw connections. They allow resource-efficient, error-free installation in a large number of applications.

The coding options reduce installation errors, allowing fast, secure wiring of all components. The pluggable installation connector offers touch-proof protection with live components in accordance with protection type IP20. Solutions like the **WINSTA® MIDI** pluggable installation connectors with B coding are suitable for applications related to process control, for example, for lighting or within data networks. Important parameters in the selection of a pluggable installation connector are the rated current and voltage: They provide information about possible domains of use and applications. This product has a current rating of 25 A—therefore it is also suitable for powerful loads. The **WINSTA® MIDI** product line offers maximum flexibility for the installation. With its Push-in **CAGE CLAMP®** spring pressure connection technology, it ensures time-saving, error-free installation and offers flexibility for meeting all installation requirements.

**Push-in CAGE CLAMP® spring pressure connection technology – pluggable**

## installation instead of laborious screw connections!

WNSTA® is the pluggable connection system that is ideally tailored to the strict requirements of electrical installation. It offers error-free installation of cables and components, quickly and reliably. Now you can also lower installation costs without compromising safety and quality. The WNSTA® MIDI pluggable installation connector with protection against mismatching eliminates the need for servicing and prevents unnecessary downtime.

- effective protection against mismatching
- pre-assembled versions
- for automation controllers
- custom-engineered solutions
- quick replacement of defective units during ongoing operation
