Item no. 770-1947

**WINSTA® MIDI > 5-way distribution connector; 5-pole; Cod. I; 1 input; 5 outputs; blue**

Color:  

## **Distribution connector WINSTA® MIDI with protection against mismatching**

The WINSTA® MIDI distribution connector I coding ensures rapid, correct installation. On PCBs, in control cabinets or for connecting lights – pluggable installation connectors from WAGO allow you to establish connections according to a huge variety of requirements in seconds.

The coding options reduce installation errors, allowing fast, secure wiring of all components. The pluggable installation connector is protected in accordance with protection type IP20. This means that users' fingers will never come into contact with energised elements. Controlled lighting equipment, as used with the DALI standard, for instance, is the primary domain of use of WINSTA® MIDI pluggable installation connectors with I coding. This pluggable installation connector is designed for a load of up to 25 A. Thus, it can also be used for high power loads. The WINSTA® MIDI Pluggable Connection System with Push-in CAGE CLAMP® spring pressure connection technology facilitates exemplary electrification. Due to the built-in test slot, connections can be checked even when they are plugged in. This saves time, labor, and money.

**WINSTA® MIDI solutions for your electrical installation – protected against mismatching and maintenance-free**

The WNSTA® Pluggable Connection System is ideally tailored to the very strict requirements of building installation. It makes electrical installation pluggable, and consequently more efficient, even more reliable, and error-free. Using this pre-assembled system reduces time spent on assembly and installation errors at the construction site. Choose quality and durability – the WNSTA® MIDI pluggable installation connector with protection type IP20 from WAGO makes the electrical installation of electrical components visibly easier.

- pluggable installation connectors with protection against mismatching
- simple circuits
- for lighting management
- custom-engineered solutions
- quick replacement of defective units during ongoing operation
