

Item no. 771-9973/206-605

**WINSTA® MIDI** › pre-assembled connecting cable; Eca;  
Plug/open-ended; 3-pole; Cod. S; H05VV-F 3 x 1.5 mm²; 6 m;  
1,50 mm²; brown

Color:

## Cable assembly **WINSTA® MIDI** with protection type **IP20**

The **WINSTA® MIDI** cable assembly 3-pole provides the foundation for installation of solid and fine-stranded conductors. On PCBs, in control cabinets or for connecting lights – pluggable installation connectors from WAGO allow you to make connections according to an enormous variety of requirements in seconds.

The mechanical coding and color coding of the pluggable installation connector ensure error-free installation of the individual components – including protection against mismating. The pluggable installation connector is protected in accordance with protection type IP20. This means that users' fingers will never come into contact with live contact elements. Outlets and light switches can be integrated with the help of **WINSTA® MIDI** pluggable installation connectors with S coding in brown. The **WINSTA® MIDI** product line achieves total flexibility for the installation of applications. Through its Push-in **CAGE CLAMP®** spring pressure connection technology, it guarantees time-saving, error-free installation and offers customization and flexibility for meeting various installation requirements. Building safety must be ensured at all times, even after the electrical installation stage. The required safety requirements in connection with EU CPR are met by this product through fire class E.

Pluggable connections instead of screw connections – cable assemblies from WAGO

A plug and a free end are provided. WINSTA® is the pluggable connection system that is ideally tailored to the strict requirements of electrical installation. It offers error-free installation of cables and components, quickly and reliably. Now you can also lower installation expenses without compromising quality and safety. The WINSTA® MIDI pluggable installation connector with protection against mismatching eliminates the need for servicing and prevents unnecessary downtime.

- pluggable installation connectors with protection against mismatching
- for automation controllers
- for AC applications
- exact dimensions
- quick replacement of defective units during ongoing operation
