

Item no. 771-9993/805-202

WINSTA® MIDI > pre-assembled adapter cable; Eca; Plug/Cold
 equipment coupling; 3-pole; Cod. A; 2 m; 1,00 mm²; white

Cable assembly **WINSTA® MIDI 3-pole**

Use effective pluggable connections instead of laborious screw connections: With the **WINSTA® MIDI** cable assembly with protection type IP20. Our pluggable installation connectors with spring pressure connection technology work without screw connections. They allow resource-efficient, error-free installation in a large number of possible uses.

The color coding and mechanical coding of the pluggable installation connector ensure error-free installation of the individual components – including protection against mismatching. The pluggable installation connector is protected in accordance with protection type IP20. That results in the fact that users' fingers will never come into contact with live elements. Thanks to the color coding and mechanical A coding of **WINSTA® MIDI** pluggable installation connectors, you can clearly distinguish different circuits. The **WINSTA® MIDI** Pluggable Connection System with Push-in **CAGE CLAMP®** spring pressure connection technology facilitates safe electrification. Due to the built-in test slot, connections can be checked even when they are plugged in. This saves time, labor, and money. Building safety must be ensured at all times, even after the electrical installation stage. The required safety requirements in connection with EU CPR are met by this product through fire class E.

Fast, error-free assembly thanks to cable assemblies from WAGO

The cable assembly is provided with a plug and an angled cold equipment coupling. The WNSTA® Pluggable Connection System is ideally tailored to the strict requirements of building installation. It makes electrical installation pluggable, and therefore faster, even more reliable, and error-free. Using this pre-assembled system reduces time spent on assembly and errors during installation at the construction site. Take advantage of the pluggable version of our maintenance-free spring pressure connection technology too! Plan your installation with WNSTA® MIDI pluggable installation connectors with strain relief housing from WAGO.

- effective protection against mismatching
- pre-assembled versions
- with Acoding for use in many general mains applications
- custom-engineered solutions
- quick replacement of defective units during ongoing operation
