771-9995/206-102

Item no. 771-9995/206-102

WINSTA® MIDI > pre-assembled connecting cable; Eca;
Plug/open-ended; 5-pole; Cod. A; H05VV-F 5G 1.5 mm²; 1 m;
1,50 mm²; white

Color:

Cable assembly **WINSTA® MIDI** with protection type **IP20**

The **WINSTA® MIDI** cable assembly with protection type IP20 provides the foundation for assembly of fine-stranded and solid conductors. The pluggable installation connectors with spring pressure connection technology work entirely without screw connections. They allow resource-efficient, error-free installation in numerous possible uses.

The color coding and mechanical coding of the pluggable installation connector ensure error-free installation of the individual components – including protection against mismatching. The pluggable installation connector is protected in accordance with protection type IP20. That results in the fact that users' fingers will never come into contact with energised elements. The **WINSTA® MIDI** pluggable installation connector with A coding in white or black is usually used for general mains applications in power distribution. The **WINSTA® MIDI** Pluggable Connection System with Push-in **CAGE CLAMP®** spring pressure connection technology facilitates exemplary electrification. Thanks to the integrated test slot, it is possible to check connections even when they are plugged in. That saves time and reduces installation labor and expense. Building safety must be ensured at all times, even after the electrical installation stage. The required safety requirements in connection with EU CPR are fully

satisfied by this product through fire class E.

Fast, error-free assembly thanks to cable assemblies from WAGO

The cable is pre-assembled with a plug and a free end. The WINSTA® Pluggable Connection System is ideally tailored to the strict requirements of building installation. It makes electrical installation pluggable, and therefore faster, even more reliable, and error-free. Use of this pre-assembled system decreases assembly times and installation errors at the construction site. Choose durability and quality – the WINSTA® MIDI pluggable installation connector with strain relief housing from WAGO makes the electrical installation of electrical components visibly easier.

- effective protection against mismatching
- simple circuits
- with Acoding for use in many general mains applications
- custom-engineered solutions
- convenient installation and commissioning
