771-9994/106-302

Item no. 771-9994/106-302

WINSTA® MIDI > pre-assembled connecting cable; Eca;
Socket/open-ended; 4-pole; Cod. A; H05VV-F 4G 1.5 mm²; 3
m; 1,50 mm²; white

Color:

Cable assembly **WINSTA® MIDI A coding**

For power and signal transmission: The **WINSTA® MIDI** cable assembly A coding. **WAGO** pluggable installation connectors are used when criteria repeat or are distributed on a specified pattern, for example for installing grid lighting or flush-mount lighting.

For greater security in electrical installations, the pluggable installation connector is equipped with mechanical protection against mismatching. The pluggable installation connector is protected in accordance with protection type IP20. This means that users' fingers will never come into contact with live contact elements. The **WINSTA® MIDI** pluggable installation connector with A coding in white or black is normally used for general mains applications in power distribution. The **WINSTA® MIDI** Pluggable Connection System with Push-in **CAGE CLAMP®** spring pressure connection technology facilitates exemplary electrification. Due to the included test slot, connections can be checked even when they are plugged in. That saves time and reduces installation labor and costs. Of course, the safety of buildings must always be ensured, even after the electrical installation has been performed. The mandatory safety requirements in connection with EU CPR are fully satisfied by this product through fire class E.

Pluggable connections instead of screw connections – cable assemblies from WAGO

The cable assembly is equipped with a socket and a free end. The WNSTA® Pluggable Connection System allows pluggable electrical installation. This significantly reduces the need for servicing and lowers costs. Now you can also reduce installation costs without compromising quality and safety. The WNSTA® MIDI pluggable installation connector with marking reduces the need for servicing and prevents unnecessary downtime.

- pluggable installation connectors with protection against mismatching
- for automation controllers
- suitable for any application
- custom-engineered solutions
- quick replacement of defective units during ongoing operation
