## **Cable assembly WINSTA® MIDI with protection type IP20**

The WINSTA® MIDI cable assembly 3-pole supports rapid, correct installation. Our pluggable installation connectors with spring pressure connection technology function without screw connections. They allow fast, efficient, error-free installation in numerous applications.

The mechanical coding and color coding of the pluggable installation connector ensure error-free installation of the individual components – including protection against mismatching. The pluggable installation connector is protected in accordance with protection type IP20. That results in the fact that users' fingers will never come into contact with live elements. The WINSTA® MIDI pluggable installation connector with A coding in white or black is usually used for general mains applications in power distribution. WINSTA® MIDI with Push-in CAGE CLAMP® spring pressure connection technology is used in a broad range of individual products you can use for quick, easy, flexible, and secure installation. This product meets all the relevant fire protection requirements of fire class E; therefore it can be used in areas where fire safety is relevant.

**Fast, error-free assembly thanks to cable assemblies from WAGO**

The cable is pre-assembled with a plug and a free end. WINSTA® is the pluggable connection system that is perfectly tailored to the strict requirements of electrical installation. It allows error-free installation of cables and components, quickly and reliably. Now you can also cut installation costs without compromising quality and safety. The WINSTA® MIDI pluggable installation connector with fire class E eliminates the need for servicing and prevents unnecessary downtime.

- protection against mismatching eliminates errors
