

Item no. 771-9985/206-802

**WINSTA® MIDI** > pre-assembled connecting cable; Eca;  
 Plug/open-ended; 5-pole; Cod. I; H05VV-F 5G 1.5 mm²; 8 m;  
 1,50 mm²; blue

Color:

## Cable assembly **WINSTA® MIDI** with protection type **IP20**

The **WINSTA® MIDI** cable assembly with protection type IP20 is the pluggable solution for your use in control cabinets, for lighting connections or on PCBs. Our pluggable installation connectors with spring pressure connection technology work completely without screw connections. They allow fast, efficient, error-free installation in a large number of applications.

The mechanical coding and color coding of the pluggable installation connector ensure error-free installation of the individual components – including protection against mismatching. The pluggable installation connector is protected in accordance with protection type IP20. This means that users' fingers will never come into contact with energised elements. **WINSTA® MIDI** pluggable installation connectors with I coding in blue are above all suitable for easy lighting installation, for example for the dimming of DALI lights. The **WINSTA® MIDI** Pluggable Connection System with Push-in **CAGE CLAMP®** spring pressure connection technology facilitates safe electrification. Thanks to the integrated test slot, connections can be checked even when they are plugged in. That saves time and reduces installation labor and costs. According to the European CPR, the fire class of the cables used in construction is critical for building safety, too. For houses with medium-level safety

requirements, cable assemblies with fire class E are suitable.

## Pluggable connections instead of screw connections – cable assemblies from WAGO

A plug and a free end are available. The WINSTA® Pluggable Connection System allows pluggable electrical installation. This saves time, lowers costs, and reduces the need for servicing. Choose quality and durability – the WINSTA® MDI pluggable installation connector with protection type IP20 from WAGO makes the electrical installation of electrical components visibly easier.

- pluggable installation connectors with protection against mismating
- for automation controllers
- with I coding for use in building automation (lighting control)
- flexible installation to save space
- fast, secure installation
