Item no. 771-9995/106-702

WINSTA® MIDI > pre-assembled connecting cable; Eca;
Socket/open-ended; 5-pole; Cod. A; H05VV-F 5G 1.5 mm²; 7
m; 1,50 mm²; white

Color:

Cable assembly **WINSTA® MIDI** with protection type **IP20**

The **WINSTA® MIDI** cable assembly rated current 16 A is the pluggable solution for your application in control cabinets, on PCBs or for lighting connections. The pluggable installation connectors with spring pressure connection technology work completely without screw connections. They allow resource-efficient, error-free installation in a large number of possible uses.

The coding options reduce installation errors, allowing fast, maintenance-free wiring of all components. The pluggable installation connector is protected in accordance with protection type IP20. This means that users' fingers will never come into contact with electrified contact elements. General mains applications for almost any domain of use can be realised with **WINSTA® MIDI** pluggable installation connectors with A coding. **WINSTA® MIDI** with Push-in **CAGE CLAMP®** spring pressure connection technology is found in a variety of projects you can use for quick, easy, flexible, and secure electrical installation. Building safety must be ensured at all times, even after the electrical installation stage. The required safety requirements in connection with EU CPR are met by this product through fire class E.

Pluggable connections instead of screw connections – cable assemblies from WAGO

A socket and a free end are available. The WNSTA® Pluggable Connection System is perfectly tailored to the very strict requirements of building installation. It makes electrical installation pluggable, and therefore more efficient, even more reliable, and error-free. Using this pre-assembled system decreases time spent on assembly and installation errors at the construction site. Now you can also cut installation costs without compromising safety and quality. The WNSTA® MDI pluggable installation connector with protection type IP20 reduces the need for servicing and prevents unnecessary downtime.

- effective protection against mismatching
- pre-assembled versions
- suitable for any application
- flexible installation to save space
- fast, secure installation
