## Cable assembly WINSTA® MIDI 5-pole

The WINSTA® MIDI cable assembly rated current 16 A supports rapid, correct installation. On PCBs, in control cabinets or for connecting lights – pluggable installation connectors from WAGO allow you to make connections according to various requirements in seconds.

The coding options reduce installation errors, allowing fast, secure wiring of all components. The pluggable installation connector is protected against ingress by solid objects in accordance with protection type IP20. The WINSTA® MIDI pluggable installation connector with A coding in black or white is normally used for general mains applications in power distribution. Our WINSTA® MIDI product line offers flexibility for the electrical installation. Through its Push-in CAGE CLAMP® spring pressure connection technology, it achieves error-free, time-saving installation and offers customization for meeting an enormous variety of installation requirements. This product meets all the relevant safety requirements of fire class E; therefore it can be used in domains where fire safety is relevant.

A socket and a plug are provided. The WNSTA® Pluggable Connection System is ideally tailored to the strict requirements of building installation. It makes electrical installation pluggable, and therefore faster, more reliable, and error-free. Use of this pre-assembled system reduces time spent on assembly and errors during installation at the construction site. Now you can also lower installation costs without compromising quality and safety. The WNSTA® MIDI pluggable installation connector with protection against mismatching eliminates the need for servicing and prevents unnecessary downtime.

- effective protection against mismatching
- pre-assembled versions
- for any mains application
- ready to install and use immediately
- convenient installation and commissioning
