

Item no. 770-834/011-000

**WINSTA® MIDI > Plug for PCBs; angled; 4-pole; Cod. A; white**

Color:

**Male connector/plug WINSTA® MIDI A coding**

The WINSTA® MIDI male connectors/plugs with protection against mismating are compact but outstanding PCB terminal blocks. They offer convenient operation and the greatest flexibility for installation. The pluggable PCB connectors with spring pressure connection technology and Push-in CAGE CLAMP® technology from WAGO permit fast, vibration-proof, maintenance-free terminal connections.

The coding options reduce installation errors, allowing fast, secure wiring of all components. The WINSTA® MIDI pcb connector with A coding in black or white is usually used for general mains applications in power distribution. This pcb connector is used for electrical currents up to 25 A. Thus the product is ideally suitable for high power loads. Our WINSTA® MIDI product line guarantees total flexibility for the electrical installation. Through its Push-in CAGE CLAMP® spring pressure connection technology, it achieves time-saving, error-free installation and offers flexibility and customization for meeting various installation requirements.

**Push-in CAGE CLAMP® spring pressure connection technology – pluggable installation instead of laborious screw connections!**

WNSTA® is the pluggable connection system that is ideally tailored to the strict requirements of electrical installation. It allows error-free installation of cables and components, quickly and reliably. Choose durability and quality – the WNSTA® MIDI pcb connector with marking from WAGO makes the electrical installation of electrical components noticeably easier.

- protection against mismating eliminates errors
- simple circuits
- with Acoding for use in a large number of general mains applications
- quick replacement of defective units during ongoing operation
