

Item no. 894-8992/233-306

WINSTA® KNX > pre-assembled connecting cable; Eca;
 Plug/open-ended; 2-pole; Cod. E; J-Y(ST)Y.LG 2x2x0.8; 3 m;
 green

Cable assembly **WINSTA® KNX** 2-pole

Use effective pluggable connections instead of laborious screw connections: With the **WINSTA® KNX** cable assembly with protection type IP20. Our pluggable installation connectors with spring pressure connection technology function completely without screw connections. They allow resource-efficient, error-free installation in numerous applications.

For greater security in electrical installations, the pluggable installation connector is provided with mechanical protection against mismatching. The pluggable installation connector offers protection against contact with live components in accordance with protection type IP20. The harmonised KNX interface represents a manufacturer-independent communication protocol for intelligently networking state-of-the-art home and building system technologies. A **WINSTA® KNX** pluggable installation connector with E coding, like all coded pluggable installation connectors, allows blind mating. Components with E coding are primarily used for supplying auxiliary power, for example to I/O devices. This product meets all the relevant fire protection requirements of fire class E; thus it can be used in areas where fire safety is relevant.

Fast, secure pluggable connections – cable assemblies from WAGO

The cable is pre-assembled with a plug and a free end. The WINSTA® Pluggable Connection System is ideally tailored to the strict requirements of building installation. It makes electrical installation pluggable, and therefore faster, even more reliable, and error-free. Using this pre-assembled system decreases assembly times and errors during installation at the construction site. Take advantage of the pluggable version of our maintenance-free spring pressure connection technology too! Plan your installation with WINSTA® KNX pluggable installation connectors with protection type IP20 from WAGO.

- products perfectly tailored to your requirements guarantee safe use
- with E coding for supplying auxiliary power to I/O devices
- ready to install and use immediately
- convenient installation and commissioning
