

Item no. 771-9995/006-702

WINSTA® MIDI > pre-assembled interconnecting cable; Eca;
 Socket/plug; 5-pole; Cod. A; H05VV-F 5G 1.5 mm²; 7 m; 1,50
 mm²; white

Cable assembly WINSTA® MIDI rated current 16 A

The WINSTA® MIDI cable assembly with protection against mismatching provides the foundation for installation of solid and fine-stranded conductors. WAGO pluggable installation connectors are useful when requirements repeat or are planned on a specified grid, for example for installing grid lighting or flush-mount lighting.

The coding options reduce installation errors, allowing fast, secure wiring of all components. The pluggable installation connector offers protection against contact with live components in accordance with protection type IP20. Thanks to the color coding and mechanical Acoding of WINSTA® MIDI pluggable installation connectors, you can clearly distinguish different circuits. WINSTA® MIDI with Push-in CAGE CLAMP® spring pressure connection technology is found in a broad range of individual products you can use for quick, easy, flexible, and secure installation. This product meets all the mandatory safety requirements of fire class E; thus it can be used in areas where fire safety is relevant.

Fast, error-free assembly thanks to cable assemblies from WAGO

A socket and a plug are available. The WINSTA® Pluggable Connection System is perfectly tailored to the very strict requirements of building installation. It makes electrical installation pluggable, and consequently faster, even more reliable, and error-free. Use of this pre-assembled system decreases time spent on assembly and installation errors at the construction site. Choose durability and quality – the WINSTA® MIDI pluggable installation connector with fire class E from WAGO makes the installation of electrical components substantially easier.

- effective protection against mismating
- pre-assembled versions
- for any mains application
- custom-engineered solutions
- convenient installation and commissioning
