INT-TSI-SSW

TOUCHSCREEN KEYPAD

The **INT-TSI** keypad is a real command center for a smart alarm system. As its interface can be customized to individual user's needs, it provides a perfect solution both for people expecting ease of operation and for advanced users who make use of the extended system functionality.

- capacitive 7" touchscreen to facilitate system operation
- graphic intuitive operating interface, customizable to individual user's needs
- MACRO functionality to implement a sequence of actions using a single command
- capability of viewing images from IP cameras (MJPG via HTTP)

Recommended cameras to be used with the INT–TSI keypad:

- AXIS 216FD
- AXIS 207
- BCS 3200
- SAMSUNG SNB6004
- VIVOTEK: IP83XX, IP81XX, FD83XX, FD81XX

We recommend using the VIVOTEK VS8102 video server, to which analog cameras can be connected.

TECHNICAL DATA

Supply voltage	12 V DC
Operating temperature range	-10°C…+55°C
Standby mode current consumption	500 mA
Max. current consumption	620 mA
Weight	430 g
Maximum humidity	93±3%
Environmental class according to EN50130-5	II
Supported memory cards	microSD, micro SDHC
Enclosure dimensions (width x height x thickness)	196 x 129 x 22 mm
