

INT-CR

PROXIMITY CARD ARM/DISARM DEVICE

INTEGRA expansion modules are the very important part of SATEL products portfolio. They can be used to expand the functionality of the panels, and to adjust the system to individual needs. Apart from zones and output expansion, they enable additional features such as e.g. access control.

FEATURES

- partitions arming and disarming with proximity cards or tags
- support for 125 kHz passive transponders
- 3 programmable partition arm modes
- 3 LEDs for system state indication and user interface display
- built-in buzzer
- compatible with **INTEGRA** and **VERSA** panels

TECHNICAL SPECIFICATION

Supply voltage	12 V DC $\pm 15\%$
Standby current consumption	65 mA
Maximum current consumption	75 mA
Transmit frequency	125 kHz
Supported card standards	UNIQUE, EM4001, EM4002, EM4003, EM4102
Environmental class according to EN50130-5	II
Working temperature range	-10°C...+55°C
Maximum humidity	93 $\pm 3\%$
Housing dimensions	127 x 35 x 21 mm
Weight	140 g
