# Thorsman Compatible Wallplates

Features and benefits

These stylish wallplates have been designed to accept either a single 25 x 50mm EUROMOD module or three 25 x 50mm EUROMOD modules. This modular system offers a wide range of modules that allows the user to install as many data outlets as required.

Compatible with the Thorsman "FrontLine" system, the product is manufactured with a halogen free material (Polycarbonate ABS alloy) which is highly durable and flame retardant.
