

Outdoor Launch Q1 2022

Sep 2021

LED Lamps & Luminaires

The right light for your garden

1. Product Design know-how

Design is the first entry point for consumers when choosing a luminaire. That is why at Philips we invest in having a world class team of designers. Throughout the years, several of our designs have become category standards in outdoor.

2. High quality material and finishing, built to last

Our products are made out of stainless steel, aluminium or special weather synthetics selected to be fully weather resistant and long lasting. The use of high quality synthetics instead of glass ensures durability and impact resistance.

3. High quality light

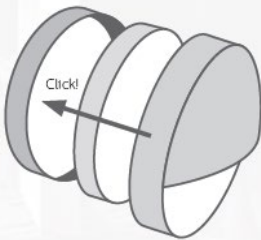

Philips outdoor lights have a uniform light output and consistent white light, available in 2700 or 4000 Kelvin.

4. Easy to install

Install Philips outdoor lights in up to 3 easy steps. Consumers who have mounted our products recognize they are easy to install and consider it as an important benefit.
(Source: Home Usage Test France - 2015)

5. Safe to use

Philips luminaires are completely safe to use. The wires are double isolated and the article does not contain any sharp edges.

6. Powerful brand

Research shows that Philips is a brand perceived as being innovative and trustworthy, which reassures consumers in their purchase.
