FEATURES AND SPECIFICATIONS

molex®

1 Port Surface Mount Box Unloaded

Features and Benefits

The Molex Premise Networks Surface Mount Box was designed specifically to accommodate the DataGate™ Jack. Supplied unloaded, the Surface Mount Box is easy to install on site. The box can be fitted using screws (not provided). Cable is installed from the underside and rear of the box. Critical cable bend radius measurements, crucial for Category 6 installations are easy to maintain due to the integral cable management provided.
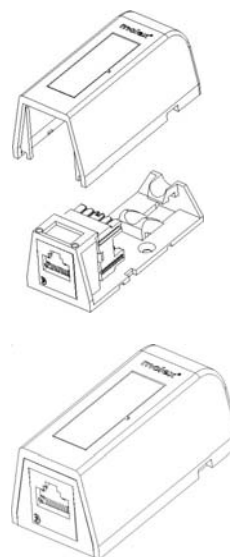

- ■ Rugged PC/ABS plastic
- ■ Snap on Lid
- ■ Protected labelling facility
- ■ DataGate Jack is purchased separately
