MOISTEC PRO

Wood and building moisture meter

designed in Austria

ADVANTAGES AND BENEFITS

- + Non-destructive moisture measurement within seconds
- + At the touch of a button you can change the measuring mode and choose between wood moisture and building moisture
- + For accurate results 8 wood groups and 4 building material groups are preprogrammed
- + Temperature measurement in °C or °F
- + Automatic temperature compensation, auto-calibration and automatic shut-off function
- + Easily readable digital display with backlight, including temperature and battery level indication
- + Hold function of the measured value (e.g. for overhead measurements)
- + Ergonomic design und robust housing with rubber grip surface for perfect grip
- + Inclusive lanyard, belt pouch, 2 pcs. 1,5 V AAA Alkaline batteries and user manual
- + Ecological cardboard packaging with holder for presentation in stores

TECHNICAL DATA

Wood:

- + Measuring depth: up to 20 mm
- + Measuring range wood moisture: 2% – 65%
- + Density range: 420 – 700 kg/m³
- + 8 wood groups preprogrammed

Building material:

- + Measuring depth: 10 mm
- + Measuring range building moisture: 0,1% – 35% (10% product-specific)
- + Density range: 1.800 – 2.400 kg/m³
- + 4 building material groups preprogrammed

- + Operating temperature: 5 – 40 °C / 41 – 104 °F
- + Temperature range: -10 – +60 °C / 14 – 140 °F

- + Power supply: 2 pcs. 1,5 V AAA Alkaline batteries
