

Communication module, cable

Part no. IZMX-CAM-CAB-1  
Catalog No. 186877

EL-Nummer 4398693  
(Norway)

Technical data ETIM 7.0

|                                                                                                                                                                                                                                                   |  |                                      |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--------------------------------------|
| Low-voltage industrial components (EG000017) / Accessories for low-voltage switch technology (EC002498)                                                                                                                                           |  |                                      |
| Electric engineering, automation, process control engineering / Low-voltage switch technology / Component for low-voltage switching technology / Component for low-voltage switch technology (accessories) (ecl@ss10.0.1-27-37-13-92 [AKN570013]) |  |                                      |
| Type of accessory                                                                                                                                                                                                                                 |  | Communication and measuring function |
