

# MIRRO IP44 SOCKET

Timeless and dimmable mirror luminaire in white enamelled aluminium (RAL9016) with opal diffuser for an even light distribution in three directions. Mirro has very good colour rendering,  $Ra > 90$ , making it perfect for bathrooms. IP44-rated and adapted to meet the requirements for smaller bathrooms in public or private environments. Selectable colour temperature via DIP-Switch ColourTemp directly in the luminaire. Can be installed flat on the wall and above a bathroom cabinet with the Cabinet Bracket Mirro IP44 Socket accessory. The luminaire has an installation-friendly raised rear section with quick contact and spirit level to make installation easy; comes with knockouts for surface-mounted cable and double cable bushings for easy through wiring. Dimmable driver integrated in luminaire for direct 230V connection. Lighting and power sockets can be controlled separately. See more products at [www.hidealite.com](http://www.hidealite.com)
