

INDLINE M

Industrial luminaire in steel with high efficiency that meets industry's needs for flexibility and long life time. Replaces T5 and T8 luminaires with lower energy consumption and reduced maintenance. Push-in terminal for through wiring, centred bushing in end cap for hidden cable routing and cable inlets on both sides for easy installation. Well-planned design enabling replacement of both LED and driver. Adjustable lumen output and wattage via DIP-switch Power directly in the luminaire. The luminaire is adapted for installation on a luminaire rail and has key holes for ceiling installation.

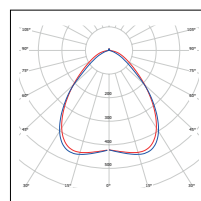

**INDLINE
- THE PERFECT
FLUORESCENT TUBE
REPLACEMENT**

- Highly efficient fluorescent tube replacement
- Replaceable LED module and driver – safe and sustainable
- Adjustable lumen output and wattage via DIP-switch Power
- Flexible installation to suit all needs and surfaces in industry.
- Luminaire life time L80 100 000h Ta 25°C
- Driver life time 100 000h/10%
