

# KITCHEN LINE BASIC

Easily installed cabinet luminaire with linear light. Perfect replacement for fluorescent tube luminaires or for new installations and retrofit work, such as in kitchens and laundry rooms. Easy to replace parts after use. Opal light outlet that creates a well balanced light distribution on both work surfaces and walls. Selectable colour temperature via DIP switch. On/Off switch on luminaire. Installation using double-sided tape and screws, plenty of space for cables, keyhole assembly and cable bushing on both the long and short sides.

EASILY INSTALLED  
CABINET LIGHTING WITH  
REPLACEABLE LED AND  
DRIVER

- Replaceable LED and driver – built for the future
- Illuminates both the work surface and the wall
