LITELINE G2 IP44

Liteline IP44 Generation 2. Powerful fluorescent tube replacement with patented folding end caps in recycled plastic. By replacing traditional fluorescent luminaires you not only reduce your energy consumption but also considerably reduce maintenance costs. With Liteline G2 IP44, you get a replaceable LED and driver, as well as the possibility of choosing colour temperature and adjusting lumen output via DIP-switch. The luminaire comes in two lengths with a number of control possibilities. Supplied with a prismatic cover of recycled, durable polycarbonate with an opal diffuser for even light distribution. All our Liteline G2 luminaires are equipped with quick terminals at both ends for simple through wiring. Through wiring 5x2,5mm^2 as standard. There are also cable bushings in both ends, as well as in the base of the luminaire. Liteline G2 is perfect where the light requirement is great and the quality requirement is high, such as production environments, garages or storage areas.
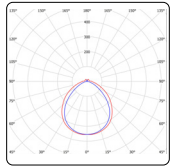

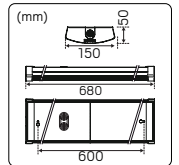

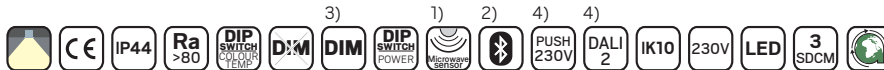

- Energy-efficient fluorescent tube replacement, now with even higher efficiency – up to 159lm/W

- Replaceable LED and driver – built for the future

- Prismatic diffuser in durable (IK10) recycled plastic with pre-installed opal film.

- Patented folding end caps in recycled plastic for easy installation

- Selectable colour temperature and adjustable lumen output via DIP-switch.

- Luminaire life time L80 100,000h Ta 25ºC

- Life time CLO L100 100,000h Ta 25ºC
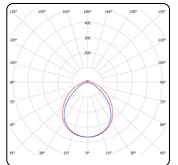

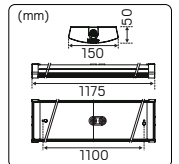

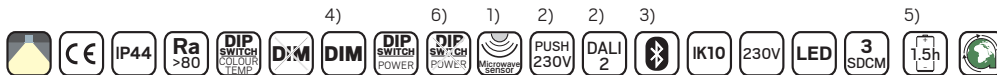

- Driver life time 100,000h/10%

LITELINE G2 IP44 600
