# HEALING HEAT FROM HARVIA SPIRIT OF LÖYLY

ELEGANT CURVED SHAPES

SOFT & STEAMY  
SAUNABATHS

CLOSE TO  
NATURE DESIGN

LARGE AMOUNT  
OF SAUNA STONES

EASY &  
SAFE TO USE

SMALL SPACE  
REQUIREMENT

The classic curved design of the Harvia Spirit electric heater brings out a natural look. The Harvia Spirit showcases the round sauna stones which creates a modern yet elegant atmosphere in the sauna without abandoning the traditional sauna experience. The heater is equipped with remote WiFi control which is easy to use. The Harvia Spirit is truly the spirit of your sauna!

The Harvia Spirit is designed and manufactured in Finland. It showcases Harvia's craftsmanship while keeping safety and performance in mind. The newly designed air ventilation channel within the heater evenly distributes heat throughout the sauna to protect individual components in the sauna from overheating.

The Spirit Heater is WiFi compatible using the MyHarvia mobile application, which allows you to conveniently schedule your relaxing sauna sessions around your busy schedule.

HARVIA

# TECHNICAL INFORMATION

**SPiRiT E**  
(requires a separate control unit)

**Harvia Spirit model E** sauna heater, equipped with a separate control unit, enables various connection options in home and especially in professional use.

**SPiRiT XW**

**The Harvia Spirit XW** model is a ready-made package to be remote controlled via MyHarvia mobile app. The Spirit XW electric heater includes a Xenio WiFi control panel and door sensor to secure the safe remote use of the heater.

1. A unique air ventilation channel at the back of the electric heater directs cool air from the bottom of the heater to the top of the heater and prevents the wall structures from getting too hot while increasing the airflow in the sauna.
2. The heating element tunnel in the stone space of the heater enhances the hot air circulation through the heater which speeds up the heating time and evens out the temperature of the sauna.
3. The heat radiation protection on the front of the Spirit heater provides protection for the sauna and the sauna users and guides the steam to the upper part of the heater.

## COMPATIBLE PRODUCTS

Rounded sauna stones  
5-10 cm  
R-99

Safety railing  
SP3

Embedding flange  
HSP1

Xenio CX170XW WiFi control unit (Spirit E)
