**Product description:** ELKO One cover frame is a 3 gang, horizontal and vertical mounted frame.

Besides the circular two openings for any ELKO One functions, the frames are having one square opening to fit 56x56 mm center plate function from existing ELKO RS and ELKO Plus offer.

It is extremely slim and is giving a floating effect towards the wall.

The silk-matt surface finish in combination with the shape is giving an interesting glowing reflection of the light.

This device enables flush mounting.

The dimensions of the product are (W) 86mm x (H) 228mm x (D) 10.3mm.

It is made of recycled Polycarbonate (PC). The color of the product is pure white (RAL 9003) with matt surface finish.

It reaches IP21 degrees of protection.

One range by ELKO is covering Wiring Devices, Stand Alone Electronics and Network Connectivity functions for both flush as well as surface installation. The One range has been developed with sustainability in mind, using recycled plastic.

Modern and slim design with a smooth matt surface finish that is reflecting the light in a glowing way due to it's shape.
