REACH/SCIP information on articles containing SVHC substances

07.12.2023

SG Armaturen has according to Regulation (EC) No 1907/2006 article 33 an obligation to provide REACH and SCIP information downstream the supply chain, for articles containing one or more substances of very high concern (SVHC) on the ECHA Candidate List in a concentration above >0,1% w/w.

The Candidate List can be found at this [www: https://echa.europa.eu/candidate-list-table](https://echa.europa.eu/candidate-list-table)

To update SG Armaturen's master data, we therefore kindly ask you to provide us information about the substances in the articles we purchase from you.

In the event that one or more of the SVHCs is present in a concentration above 0,1% by weight, in any of the preparation(s) or article(s) which you have supplied to us, we require:

- 1) The exact designation of the substances
- 2) CAS number and/or EC number
- 3) Precise concentration in percentage by weight
- 4) SCIP number if available

Compliance with regulation

To ensure that we comply with legal obligations, we require from you as our supplier, legally binding confirmation that none of the preparation(s) or article(s) which you supply to us, contains any of the substances on the ECHA Candidate List.

We hereby confirm

- That no preparation(s) or article(s) contains substances from the ECHA Candidate List exceeding 0,1% by weight
- That SG Armaturen AS always shall be informed if the products contain substances from the ECHA Candidate List

Guangdong Futina Electrical Co., Ltd.
