

## RoHS Compliance Declaration

Stansefabrikken Products AS provides products and solutions within a broad range of Electrical cabinets and distributes a large selection of associated components. The products are primarily marketed and sold to the Norwegian electrical market.

Stansefabrikken Products AS continuously work to ensure that the products produced are designed in accordance with the requirements of RoHS – Restriction on Hazardous Substances Directive (Directive 2011/65/EU of 8. June 2011) and the amending Directive RoHS 3 (Directive 2015/863/EU of 31. March 2015). Ongoing contact with our suppliers and sub-suppliers ensures that materials and products distributed do not contain hazardous substances above the allowable threshold.

Stansefabrikken Products AS operate in accordance with the restriction of the use of certain hazardous substances in electrical and electronic equipment to protect the environment and public health. To our knowledge at the time this declaration was signed, our products do not contain, or contain in approved proportions, the substances listed below. Please note that RoHS 0.1% lead amounts are exempted when used as an alloying element in steel, aluminum, copper, in specific solders and in specific glass and ceramic applications up through 2024. (RoHS 2011/65/EU Annex III).

Substances	Max Limit %
Cadmium	0,01 %
Lead	0,1 %
Mercury	0,1 %
Hexavalent chromium	0,1 %
Polybrominated biphenyls (PBB)	0,1 %
