

Replaceable LED & drivdon

INDLINE BASIC IP23

Indline Basic is an entry-level industrial luminaire – a cost-effective solution for replacing old T5 and T8 fluorescent installations. Available in two sizes, M and L, and with a choice of On/Off or DALI. The well-considered design allows for replacement of both LED and driver, simplifying maintenance. The On/Off version can be adjusted to lower luminous flux and power via DIP-Switch Power. With microprismatic diffuser, it provides even and high-quality light output. The luminaire is delivered with openable end caps.

- Energy-efficient fluorescent replacement in two sizes: M and L.
- Replaceable LED and driver
- Openable end caps for easy installation
- Mounting options: trunking rail, surface ceiling, wall or wire
- Control the lighting via On/Off or DALI
- Lifetime L70 100,000h Ta 25°C
- Lifetime driver 100 000h /10%
