## IP65 COMPACT STEEL SURFACE DISTRIBUTION CABINETS

Description: IP65 DISTRIBUTION CABINETS OPAQUE DOOR (96-120 MOD.)

Reference:

**65SUP96-120PO**

### Characteristics:

|                           |                                                                                                                |
|---------------------------|----------------------------------------------------------------------------------------------------------------|
| Product type:             | Compact steel surface distribution cabinets with removable chassis                                             |
| Dimensions cabinet:       | (AxBxC) 910x670x212 mm                                                                                         |
| Installation:             | Surface                                                                                                        |
| Type of door:             | Opaque door                                                                                                    |
| Locking:                  | 5-mm ¼ turn double-bit lock                                                                                    |
| Finish:                   | Coated with hardened epoxy-polyester paint, embossed                                                           |
| Colour:                   | White RAL 9003                                                                                                 |
| Mounting plate:           | Without mounting plate                                                                                         |
| Weight (Kg):              | 24,45                                                                                                          |
| Materials:                | Cold-rolled steel EN 10130+A1<br>Injected polyurethane sealing gasket<br>Removable chassis in galvanised steel |
| Capacity:                 | 96 modules (4 200-mm mod. lids + 1 50-mm blind lid). 120 modules (5 150-mm mod. lids + 2 50-mm blind lids)     |
| Maximum acceptable loads: |                                                                                                                |

### Technical data:

|                            |                 |
|----------------------------|-----------------|
| Degree of protection:      | IP65            |
| Resistance to impact:      | IK10            |
| Ambient temperature range: | -25 °C / +40 °C |
| Maximum operating voltage: | 1000 V AC       |

### Certificates and standards:

|               |                                                 |
|---------------|-------------------------------------------------|
| Directive:    | 2014/35/EU                                      |
| Standards:    | UNE-EN 62208 and UNE-EN 61439-1 (as applicable) |
| Certificates: |                                                 |

### Codes:

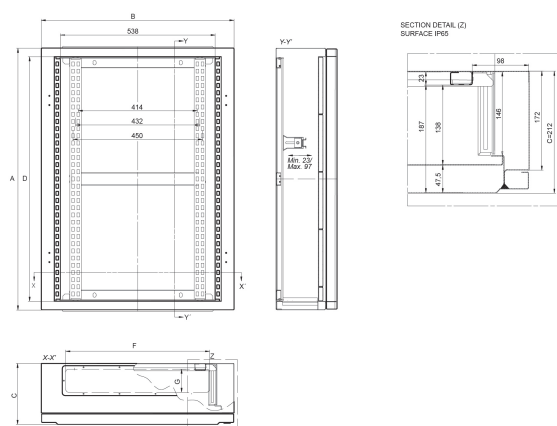

|                        |               |
|------------------------|---------------|
| EAN:                   | 8431044280820 |
| Customs tariff number: | 85.38.10.00   |
| ETIM 6.0:              | EC000058      |

**Dimensions cabinet:** (AxBxC) 910x670x212 mm

**Body to be flush-fitted:** -

**Inside usable space:** (D) 850 mm

**Cable entry:** (FxG) 500x80 mm

**Wall fixing:** -

**Glass door with transparent panel:** -

### Sustainability:

RoHS - REACH

### Supply:

They are supplied assembled in individual packaging that contains the cabinet with the door and the locks assembled, and an accessory bag. Cabinets are supplied empty, without lids or DIN rail

### Product end of life:

It does not require specific recycling operations.

### Recommended applications:

Tertiary and residential sectors. for use indoors, bars and restaurants, department stores, schools, offices, etc.
