## PIEZO BUZZERS

## Acoustic Signals Piezo Buzzers > AE20M Series

### Product overview

The AE20M piezo miniature buzzer range is a compact, low cost audible signalling solution for local indication where very low current consumption may be a requirement. A threaded

locking ring allows for easy installation for all panel mount installations.

The unit offers a single stage alarm, either a fast pulsed or continuous tone selectable by a three pin connection combination.

Connections for  
115v & 230v
