Valid from: 17.09.2018	FLEXIMARK® CABLE TIE PLIER HT-338	

Mounting:

FLEXIMARK® Cable tie gun is used to mount FLEXIMARK® Stainless steel cable marking with FLEXIMARK® Stainless steel cable ties.

- By pulling the handle you pull the cable tie tight around the cable.
- When the cable tie is tight enough, the cable tie gun cuts the cable tie automatically.
- By adjusting the traction force you can easily adjust the right force for the right cable

Other product data:

ETIM Classification: EC000453

Advantages:

- FLEXIMARK® Cable tie plier makes your mounting of cable marking with FLEXIMARK® Stainless steel cable ties (coated and uncoated) much easier
- Automatic cutting function makes your mounting more efficient
- Adjustable traction force gives you possibility to adjust how tight the cable ties should be mounted
- FLEXIMARK® Stainless steel cable ties are available in FLEXIMARK® Assortment

Related products:

With FLEXIMARK® Stainless steel cable ties and FLEXIMARK® Cable tie plier you can easily mount FLEXIMARK® Stainless steel marking on cables with different cable diameter. All stainless steel articles from Fleximark are produced from high quality stainless steel material; SIS SS2348 (AISI-316).

FLEXIMARK® Stainless steel marking is available as marking with customized embossed text and also as standard marking on site with stainless steel characters and holders.

FLEXIMARK® Stainless steel cable ties are available in many different lengths and widths. You can choose between coated and uncoated cable ties.
