#### **DATASHEET - PKZM0-12**

#### Motor-protective circuit-breaker, 3p, Ir=8-12A

PKZM0-12 Part no. Catalog No. 278486 Alternate Catalog XTPR012BC1NL

**EL-Nummer** 4365083

(Norway)

| Delivery program  |                 |    |  |
|---|-----------------|----|--|
| Product range   |                 |    | PKZM0 motor protective circuit-breakers up to 32 A   |
| Basic function  |                 |    | Motor protection   |
|   |                 |    | IE3 ✓  |
| Notes   |                 |    | Also suitable for motors with efficiency class IE3. IE3-ready devices are identified by the logo on their packaging. |
| Connection technique  |                 |    | Screw terminals  |
| Contact sequence  |                 |    | F+   |
| Max. motor rating   |                 |    |  |
| AC-3  |                 |    |  |
| 220 V 230 V 240 V   | P               | kW | 3  |
| 380 V 400 V 415 V   | P               | kW | 5.5  |
| 440 V   | P               | kW | 5.5  |
| 500 V   | P               | kW | 5.5  |
| 660 V 690 V   | P               | kW | 11   |
| Rated uninterrupted current   | I <sub>u</sub>  | Α  | 12   |
| Setting range   |                 |    |  |
| Overload releases   | l <sub>r</sub>  | A  | 8 - 12   |
| short-circuit release   |                 |    |  |
| max.  | I <sub>rm</sub> | Α  | 186  |
| Phase-failure sensitivity   |                 |    | IEC/EN 60947-4-1, VDE 0660 Part 102  |
| Explosion protection (according to ATEX 94/9/EC)  |                 |    | © PTB 10, ATEX 3013, Ex II(2) GD<br>Observe manual MN03402003Z-DE/EN.  |
| <b>Notes</b> Overload trigger: tripping class 10 A Can be snapped on to IEC/EN 60715 top-hat rail with 7.5 or 15 mm height. |                 |    |  |

#### **Technical data** General

| Operating ambient temperature min.   |                   | °C | -25  |
| Operating ambient temperature max.   |                   | °C | 55   |
| IEC/EN 61439 design verification   |                   |    |  |
| 10.2 Strength of materials and parts   |                   |    |  |
| 10.2.2 Corrosion resistance  |                   |    | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures   |                   |    | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                   |    | Meets the product standard's requirements.   |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                   |    | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                   |    | Meets the product standard's requirements.   |
| 10.2.5 Lifting   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  |                   |    | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES  |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   |                   |    | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections  |                   |    | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   |                   |    | Is the panel builder's responsibility.   |
| 10.9 Insulation properties   |                   |    |  |
| 10.9.2 Power-frequency electric strength   |                   |    | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   |                   |    | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material   |                   |    | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   |                   |    | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   |                   |    | Is the panel builder's responsibility. The specifications for the switch<br>gear must be observed. $\label{eq:constraint}$       |
| 10.12 Electromagnetic compatibility  |                   |    | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function  |                   |    | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

| Type of control element                                |    | Turn button                              |
| Device construction                                    |    | Built-in device fixed built-in technique |
| With integrated auxiliary switch                       |    | No                                       |
| With integrated under voltage release                  |    | No                                       |
| Number of poles  |    | 3  |
| Rated short-circuit breaking capacity Icu at 400 V, AC | kA | 50                                       |
| Degree of protection (IP)                              |    | IP20                                     |
| Height   | mm | 93                                       |
| Width  | mm | 45                                       |
| Depth  | mm | 76                                       |

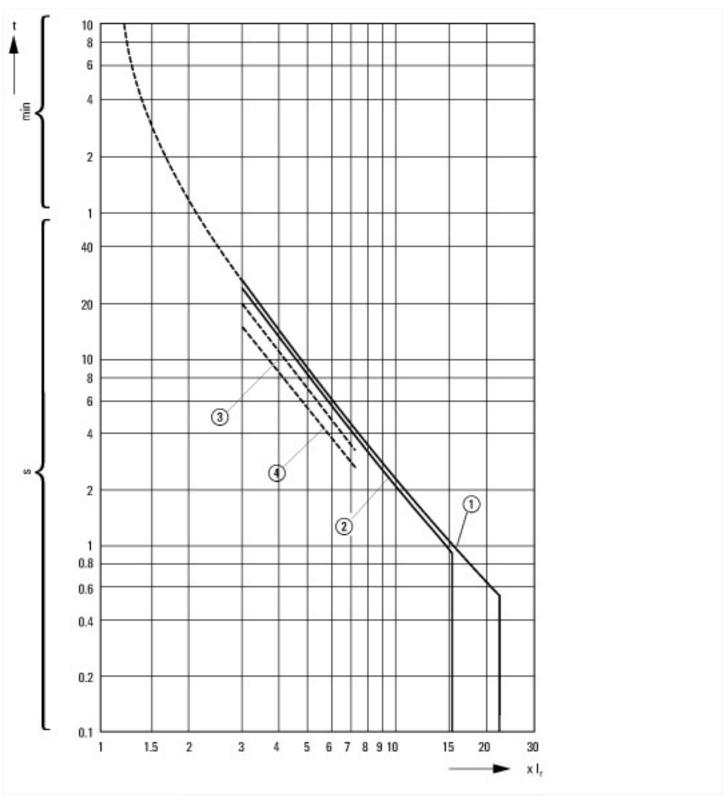

#### **Approvals**

| IEC/EN 60947-4-1; UL 60947-4-1; CSA - C22.2 No. 60947-4-1-14; CE marking                 |
|--|
| E36332   |
| NLRV   |
| 165628   |
| 3211-05  |
| UL listed, CSA certified   |
| No   |
| Branch circuit: Manual type E if used with terminal, or suitable for group installations |
|  |

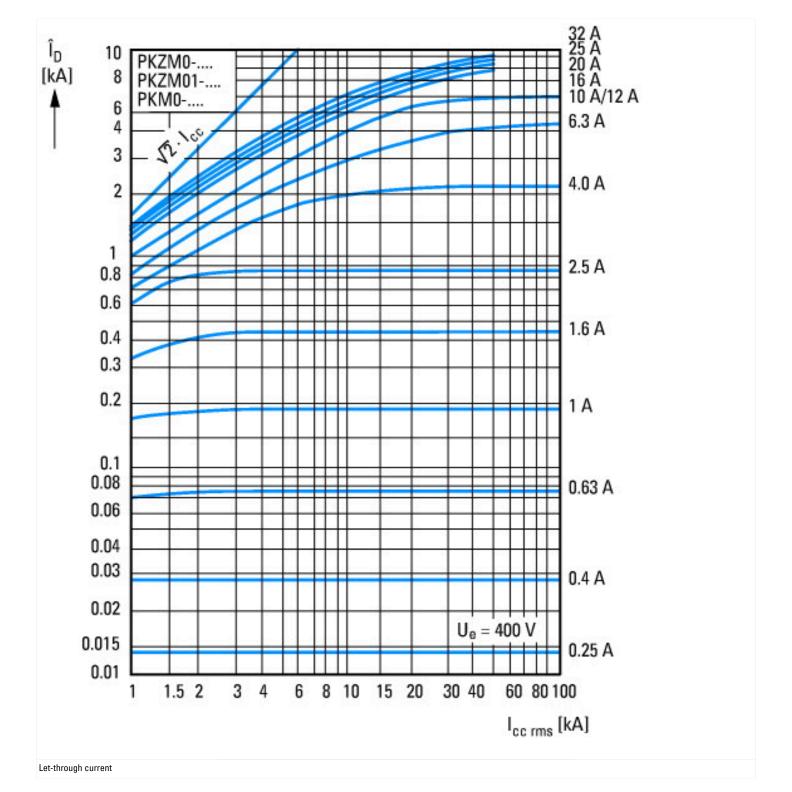

## **Characteristics**

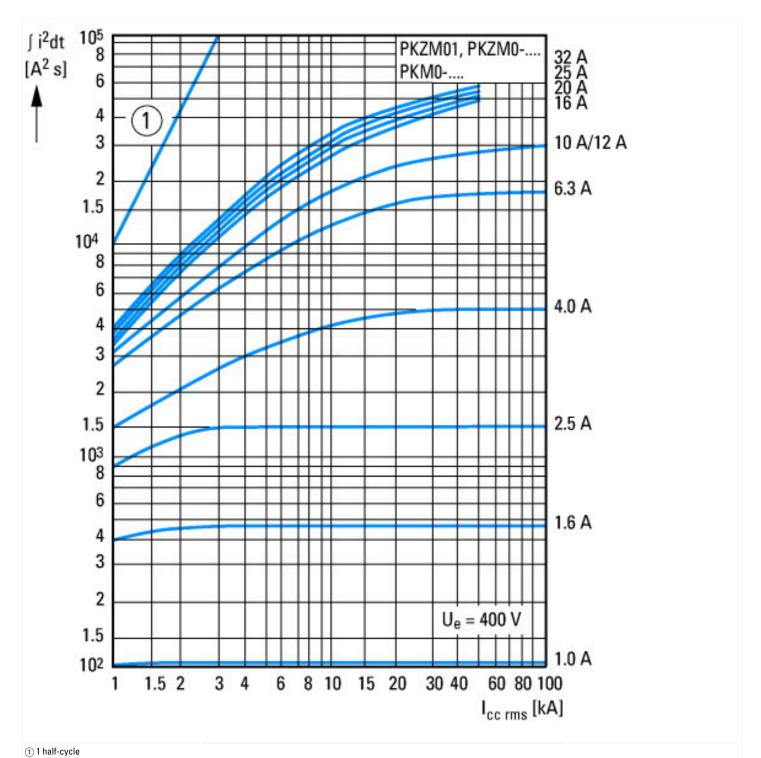

- 1: Standard auxiliary contact
  2: Trip-indicating auxiliary contact
  3: Shunt releases, undervoltage releases

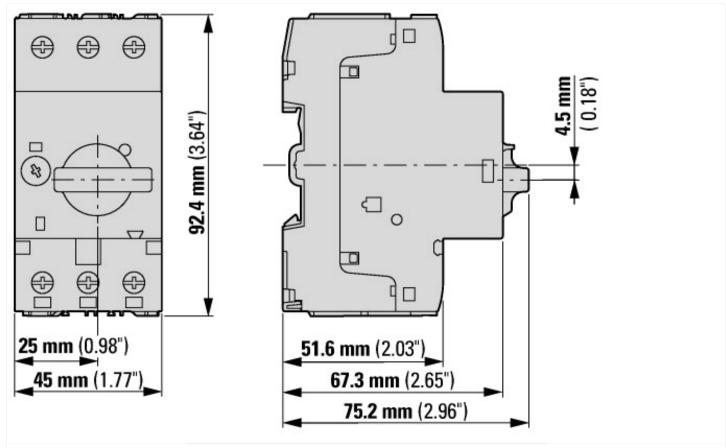

Tripping characteristics motor circuit breaker PKZM0-..., PKZM01
1: Minimum level, 3-phase
2: Maximum level, 3-phase
3: Minimum marker, 2-phase
4: Highest marker, 2-phase

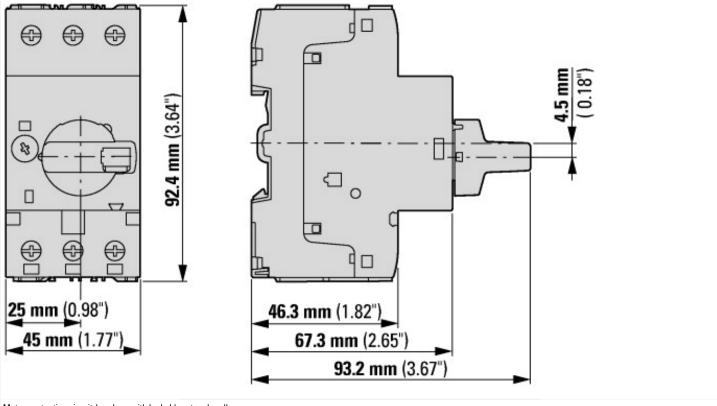

#### **Dimensions**

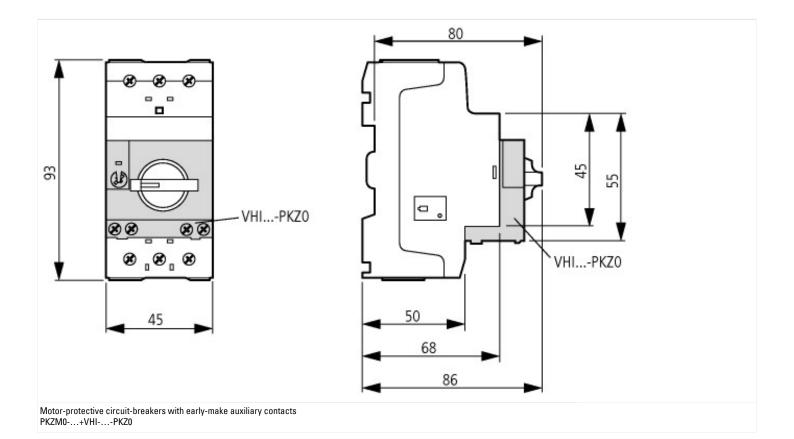

Motor-protective circuit-breaker with standard auxiliary contact

PKZMO-...(+NHI-E-...-PKZ0) PKZMO-...-T(+NHI-E-...-PKZ0) PKMO-...(+NHI-E-...-PKZ0)

Motor-protective circuit-breakers with lockable rotary handles  $\mbox{PKZM0-}...+\mbox{AK-PKZ0}$
