## **DATASHEET - DILM12-32(230V50HZ,240V60HZ)**

Contactor, 380 V 400 V 5.5 kW, 3 N/O, 2 NC, 230 V 50 Hz, 240 V 60 Hz, AC operation, Screw terminals

DILM12-32(230V50HZ,240V60HZ) Part no.

276935 Catalog No. Alternate Catalog XTCE012B32F

No.

**EL-Nummer** 4110285

| 10.4 Clearances and creepage distances  |                   |    | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock  |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components  |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections   |                   |    | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors  |                   |    | Is the panel builder's responsibility.   |
| 10.9 Insulation properties  |                   |    |  |
| 10.9.2 Power-frequency electric strength  |                   |    | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage  |                   |    | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material  |                   |    | Is the panel builder's responsibility.   |
| 10.10 Temperature rise  |                   |    | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating  |                   |    | Is the panel builder's responsibility. The specifications for the switch<br>gear must be observed. $\label{eq:constraint}$       |
| 10.12 Electromagnetic compatibility   |                   |    | Is the panel builder's responsibility. The specifications for the switch<br>gear must be observed. $\label{eq:specification}$    |
| 10.13 Mechanical function   |                   |    | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

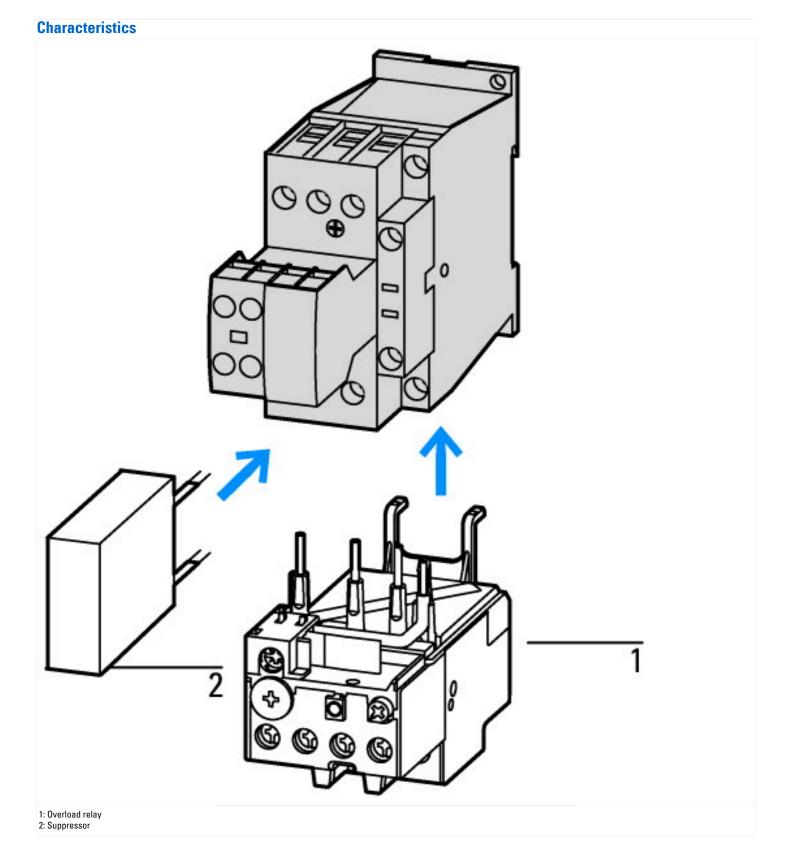

## **Technical data ETIM 7.0**

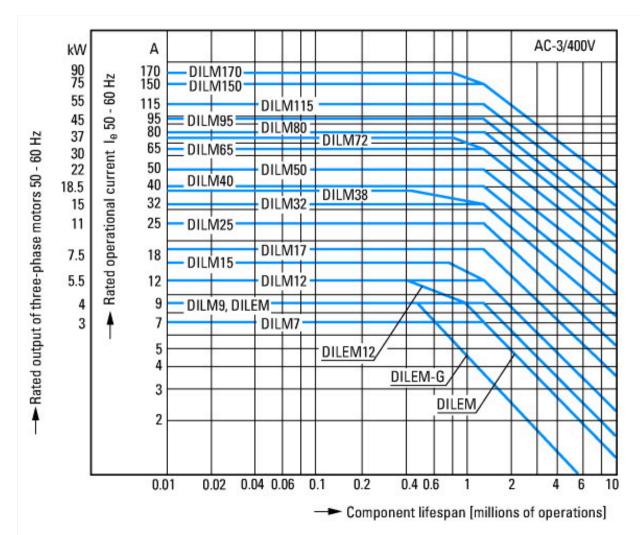

| Low-voltage industrial components (EG000017) / Power contactor, AC switching (EC000066)   |    |           |  |  |
|---|----|-----------|--|--|

Eaton 276935 ED2020 V71.0 EN

Squirrel-cage motor Operating characteristics Starting:from rest Stopping:after attaining full running speed Electrical characteristics Make: up to 6 x rated motor current Break: up to 1 x rated motor current Utilization category 100 % AC-3

Typical applications

Compressors

Lifts

Mixers

Pumps

Escalators

Agitators

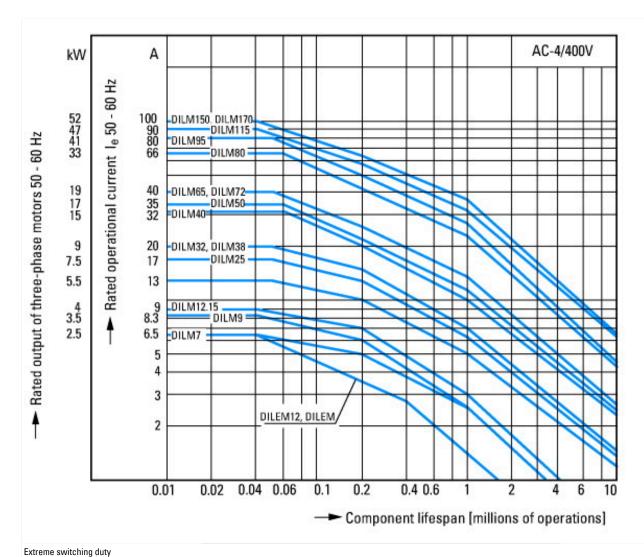

Fans

Conveyor belts Centrifuges

Hinged flaps

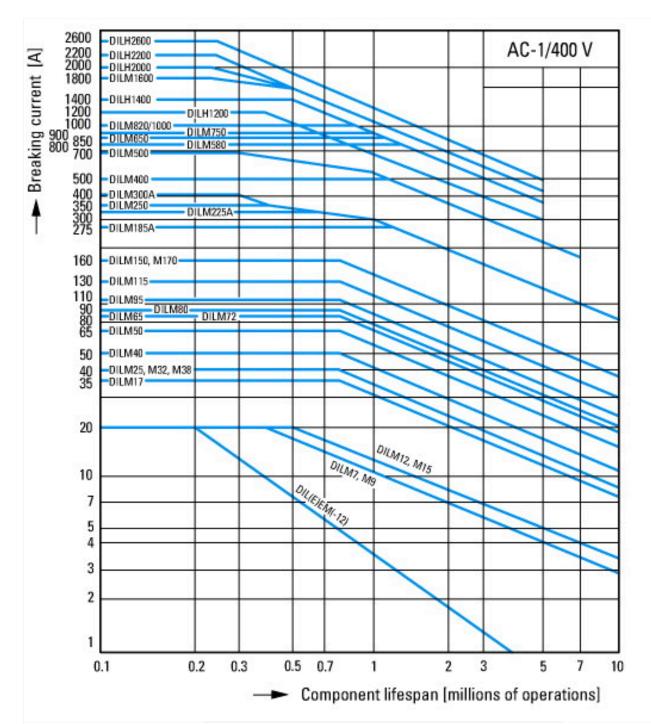

Bucket-elevators Air conditioning system

General drives in manufacturing and processing machines

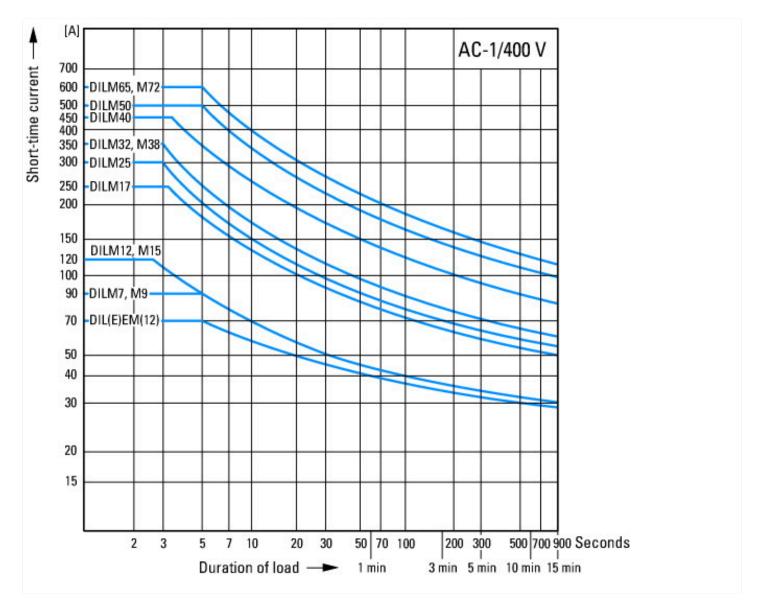

Squirrel-cage motor Operating characteristics Inching, plugging, reversing Electrical characteristics Make: up to 6 x rated motor current Break: up to 6 x rated motor current Utilization category 100 % AC-4 Typical applications
Printing presses Wire-drawing machines Centrifuges

Special drives for manufacturing and processing machines

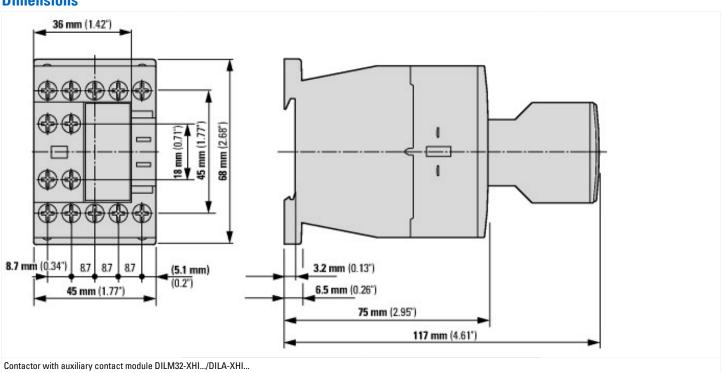

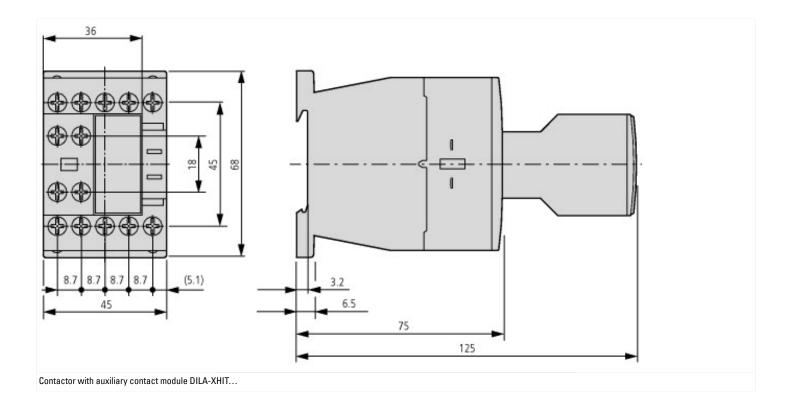

Switching conditions for 3 pole, non-motor loads Operating characteristics
Non inductive and slightly inductive loads
Electrical characteristics
Switch on: 1 x rated operational current
Switch off: 1 x rated operational current
Utilization category
100 % AC-1
Typical examples of application

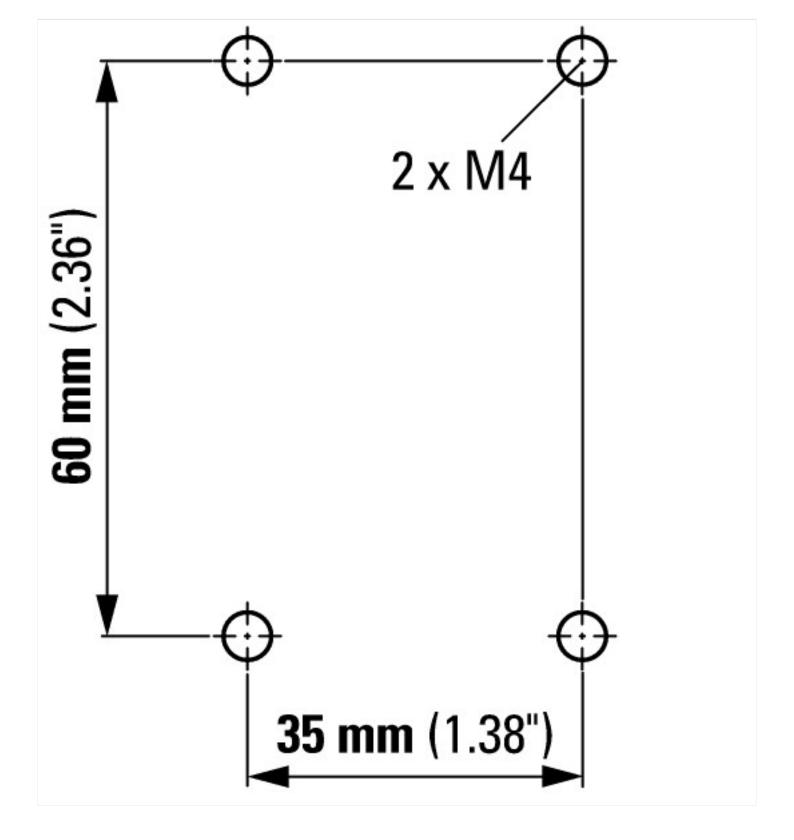

Electric heat

### **Dimensions**

14 / 14
