

Applications:

The cable lubricant CS-CPL was developed for the installation area and can be easily dropped on the installation cables without dripping Apply.
It has exceptional lubricity for very fast Pulling in the cables.
Safe protection against cable sheath damages, by reducing the Friction resistance by up to 80%.

Properties:

- Excellent sliding effect
- clear and colorless
- Water-based, easy to wash off, no staining
- Easy application, no matter with brush, pump or by hand
- Suitable for many types of cables
- Reduction of frictional resistance up to 80%
- Skin-friendly
- Environmentally friendly, biodegradable
- Nontoxic
- Non-flammable
- Silicone free
- processing temperature bis +5°C bis 40°C
