Product description: Multibox 1,5 is a very flexible wall box and is designed for the low double schuko socket outlets in the RS16 or the ELKO PLUS switch lines. Multibox 1,5 offers inside enough space for fittings. A patented fixing system makes it possible to use on 1 screw on each side, which fastens both the wall box as well as the equipment. This system, together with the back lock, makes fixing of the wall box very easy and time saving. Multibox 1,5 may easily be equipped with all the parts - stubs etc in the FLEXI 20 wallbox line. When no conduits are in use, use the double cable fastener: Elko No: 3282
