

## LED T26 2,5W/827 E14 FIL DIM BL

The clear-covered filament lamps in this series can replace old incandescent bulbs and halogen lamps. Furthermore, the lamps are dimmable by means of LED dimmers. The clear DIM symbol indicates dimmability. Thin LED strips are used to generate the light. Filament lamps are ideal for chandeliers. The colour temperature is a pleasant warm white (2700 K). The eco-friendly cardboard packages are colour-coded. The colour indicates the corresponding incandescent bulb, making the choice simpler for the consumer. Technical specifications are also clearly presented.

Bulb type compact
