

Product Environmental Profile

Exxact Surface Socket - outlets

General information

Representative product	Exxact Surface Socket - outlets - WDE015596
Description of the product	The main purpose of the socket outlet, rated at 16A 250V AC product range is to give access to Electricity till the plug.
Functional unit	Connect/Disconnect during 20 years the plug of a load consuming 16A under a voltage of 250V while protecting the user from direct contact with live parts and with a protection class IP20 / IP 21 protection in accordance with the standard IEC 60529.

Constituent materials

Reference product mass	121 g	including the product, its packaging and additional elements and accessories
------------------------	-------	--

Plastics	64.2%
Metals	20.1%
Others	15.7%

Substance assessment

Products of this range are designed in conformity with the requirements of the RoHS directive (European Directive 2011/65/EU of 8 June 2011) and do not contain, or only contain in the authorised proportions, lead, mercury, cadmium, hexavalent chromium or flame retardants (polybrominated biphenyls - PBB, polybrominated diphenyl ethers - PBDE) as mentioned in the Directive

As the products of the range are designed in accordance with the RoHS Directive (European Directive 2002/95/EC of 27 January 2003), they can be incorporated without any restriction in an assembly or an installation subject to this Directive.

Details of ROHS and REACH substances information are available on the Schneider-Electric Green Premium website

Additional environmental information

The Exxact Surface Socket - outlets presents the following relevant environmental aspects	
Manufacturing	Manufactured at a Schneider Electric production site ISO14001 certified
Distribution	Weight and volume of the packaging optimized, based on the European Union's packaging directive
	Packaging weight is 18.8 g, consisting of cardboard (99.46%), paper (0.54%) Product distribution optimised by setting up local distribution centres
Installation	The product does not require special installation procedure and requires little to no energy to install. The disposal of the packaging materials is accounted during the installation phase (including transport to disposal).
Use	The product does not require special maintenance operations.
End of life	End of life optimized to decrease the amount of waste and allow recovery of the product components and materials
	No special end-of-life treatment required. According to countries' practices this product can enter the usual end-of-life treatment process.
	Recyclability potential: 19% Based on "ECO'DEEE recyclability and recoverability calculation method" (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).

Environmental impacts

Reference life time	20 years			
Product category	Power socket			
Installation elements	No special components needed			
Use scenario	Load rate: 50 % of In Use rate: 50% of the RLT			
Geographical representativeness	Nordic countries: Sweden, Norway, Finland			
Technological representativeness	The main purpose of the socket outlet, rated at 16A 250V AC product range is to give access to Electricity till the plug.			
Energy model used	Manufacturing	Installation	Use	End of life
	Manufacturing plant: Elda, Poland	Electricity grid mix; AC; consumption mix, at consumer; 230V; SE	Electricity grid mix; AC; consumption mix, at consumer; 230V; SE	Electricity grid mix; AC; consumption mix, at consumer; 230V; SE

Compulsory indicators		Exxact Surface Socket - outlets - WDE015596					
Impact indicators	Unit	Total	Manufacturing	Distribution	Installation	Use	End of Life
Contribution to mineral resources depletion	kg Sb eq	2.21E-05	2.09E-05	0*	0*	1.19E-06	0*

* represents less than 0.01% of the total life cycle of the reference flow

Life cycle assessment performed with EIME version EIME v5.8.1, database version 2016-11 in compliance with ISO14044.

The use phase is the life cycle phase which has the greatest impact on the majority of environmental indicators (based on compulsory indicators).

Please note that the values given above are only valid within the context specified and cannot be used directly to draw up the environmental assessment of an installation.

Registration number :	SCHN-00441-V01.01-EN	Drafting rules	PCR-ed3-EN-2015 04 02
Verifier accreditation N°	VH33	Supplemented by	PSR-0005-ed2-EN-2016 03 29
Date of issue	02/2019	Information and reference documents	www.pep-ecopassport.org
		Validity period	5 years
Independent verification of the declaration and data, in compliance with ISO 14025 : 2010			
Internal	External	X	
The PCR review was conducted by a panel of experts chaired by Philippe Osset (SOLINNEN)			
PEP are compliant with XP C08-100-1 :2014			
The elements of the present PEP cannot be compared with elements from another program.			
Document in compliance with ISO 14025 : 2010 « Environmental labels and declarations. Type III environmental declarations »
