Hjelpekontakter																																																																																																																																													
1-polet, frontmontert																																																																																																																																													
CA4-10, 1NO Hj-kont. Frontmontert	1SBN010110R1010	4117850																																																																																																																																											
CA4-01, 1NC Hj-kont. Frontmontert	1SBN010110R1001	4117852																																																																																																																																											
CC4-10, 1NO Hj-kont. Frontmontert. Early make	1SBN010111R1010	4117854																																																																																																																																											
CC4-01, 1NC Hj-kont. Frontmontert. Late break	1SBN010111R1001	4117855																																																																																																																																											
2-Polet, sidemontert																																																																																																																																													
CAL4-11, 1NO+1NC Hj-kont.sidemontert	1SBN010120R1011	4117856																																																																																																																																											
Frontmontert hjelpekontakt (1NO+1NC) og spoletilkobling A1+A2																																																																																																																																													
CAT4-11E, 1NO+1NC+A1+A2 Frontmontert	1SBN010151R1011	4117858																																																																																																																																											
CAT4-11M, 1NO+1NC+A1+A2 Frontmontert	1SBN010151R1111	4117859																																																																																																																																											
CAT4-11U, 1NO+1NC+A1+A2 Frontmontert	1SBN010151R1311	4117860																																																																																																																																											
4-polet, frontmontert																																																																																																																																													
Klemmenummerering for AF26-AF38-30-00																																																																																																																																													
CA4-22E, 2NO+2NC hj.kont front	1SBN010140R1022	4117861																																																																																																																																											
CA4-31E, 3NO+1NC hj.kont front	1SBN010140R1031	4117862																																																																																																																																											
CA4-40E, 4NO hj.kont front	1SBN010140R1040	4117863																																																																																																																																											
CA4-04E, 4NC hj.kont front	1SBN010140R1004	4117864																																																																																																																																											
Klemmenummerering for AF9-AF16-30-10																																																																																																																																													
CA4-22M, 2NO+2NC hj.kont front	1SBN010140R1122	4117865																																																																																																																																											
CA4-31M, 3NO+1NC hj.kont front	1SBN010140R1131	4117866																																																																																																																																											
CA4-13M, 1NO+3NC hj.kont front	1SBN010140R1113	4117867																																																																																																																																											
CA4-04M, 4NC hj.kont front	1SBN010140R1104	4117868																																																																																																																																											
Klemmenummerering for AF9-AF16-30-01																																																																																																																																													
CA4-22U, 2NO+2NC hj.kont front	1SBN010140R1322	4117869																																																																																																																																											
CA4-31U, 3NO+1NC hj.kont front	1SBN010140R1331	4117870																																																																																																																																											
CA4-40U, 4NO hj.kont front	1SBN010140R1340	4117871																																																																																																																																											
Klemmenummerering for NF hjelperleer																																																																																																																																													
CA4-22N, 2NO+2NC hj.kont front	1SBN010140R1222	4117872																																																																																																																																											
CA4-31N, 3NO+1NC hj.kont front	1SBN010140R1231	4117873																																																																																																																																											
CA4-40N, 4NO hj.kont front	1SBN010140R1240	4117874																																																																																																																																											
CA4-13N, 1NO+3NC hj.kont front	1SBN010140R1213	4117875																																																																																																																																											
CA4-04N, 4NC hj.kont front	1SBN010140R1204	4117876																																																																																																																																											
Div																																																																																																																																													
VM4 Mekanisk forrigling med festklips	1SBN030105T1000	4117877																																																																																																																																											
VEM4 Mek/elektrisk forrigling (kompl. m VM4 og BB4)	1SBN030111R1000	4117878																																																																																																																																											
BB4 Festklips for 2xAF	1SBN110120W1000	4117879																																																																																																																																											
LDC4 Ekstra spoletilkobl.blokk	1SBN070156T1000	4117880																																																																																																																																											
BX4 Beskyttelsesdeksel for AF/NF	1SBN110108T1000	4117881																																																																																																																																											
BX4-CA Beskyttelsesdeksel for CA4/CAT4	1SBN110109W1000	4117882																																																																																																																																											
Skinner for starterbygging																																																																																																																																													
BER16-4 Skinne f. Rev.st. AF9-AF16	1SBN081311R1000	4117885																																																																																																																																											
BER38-4 Skinne f. Rev.st. AF26-AF38	1SBN082311R1000	4117886
