

Interlock extension, 25mm, T0, T3, P1

ZVV-T0 Part no. Article no. 022298

Delivery program

Product range Part group reference Part group refer	zemer, program		
Part group reference T0 T3 P1 Basic function Interlock elements interlock extensions Use only in conjunction with UV-T0 Notes A max. of 4 units can be put on the interlock section every 25 mm (an equal number of shaft extensions is required for this) Shaft length mm 25			
T3 P1 Basic function Interlock elements Function Use only in conjunction with UV-TO Notes A max. of 4 units can be put on the interlock section every 25 mm (an equal number of shaft extensions is required for this) Shaft length mm 25	Product range		Accessories
Function interlock extensions Use only in conjunction with UV-TO Notes A max. of 4 units can be put on the interlock section every 25 mm (an equal number of shaft extensions is required for this) Shaft length mm 25	Part group reference		T3
Use only in conjunction with UV-T0 Notes A max. of 4 units can be put on the interlock section every 25 mm (an equal number of shaft extensions is required for this) Shaft length mm 25	Basic function		Interlock elements
Notes A max. of 4 units can be put on the interlock section every 25 mm (an equal number of shaft extensions is required for this) Shaft length mm 25	Function		interlock extensions
Shaft length of shaft extensions is required for this) 25			Use only in conjunction with UV-T0
	Notes		A max. of 4 units can be put on the interlock section every 25 mm (an equal number of shaft extensions is required for this)
For use with UV-T0	Shaft length	mm	25
	For use with		UV-T0

Design verification as per IEC/EN 61439			
Technical data for design verification			
Rated operational current for specified heat dissipation	In	Α	0
Heat dissipation per pole, current-dependent	P _{vid}	W	0
Equipment heat dissipation, current-dependent	P _{vid}	W	0
Static heat dissipation, non-current-dependent	P _{vs}	W	0
Heat dissipation capacity	P _{diss}	W	0
Operating ambient temperature min.		°C	-25
Operating ambient temperature max.		°C	50
IEC/EN 61439 design verification			
10.2 Strength of materials and parts			
10.2.2 Corrosion resistance			Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures			Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat			Meets the product standard's requirements.
10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects			Meets the product standard's requirements.
10.2.4 Resistance to ultra-violet (UV) radiation			Please enquire
10.2.5 Lifting			Does not apply, since the entire switchgear needs to be evaluated.
10.2.6 Mechanical impact			Does not apply, since the entire switchgear needs to be evaluated.
10.2.7 Inscriptions			Meets the product standard's requirements.
10.3 Degree of protection of ASSEMBLIES			Does not apply, since the entire switchgear needs to be evaluated.
10.4 Clearances and creepage distances			Meets the product standard's requirements.
10.5 Protection against electric shock			Does not apply, since the entire switchgear needs to be evaluated.
10.6 Incorporation of switching devices and components			Does not apply, since the entire switchgear needs to be evaluated.
10.7 Internal electrical circuits and connections			Is the panel builder's responsibility.
10.8 Connections for external conductors			Is the panel builder's responsibility.
10.9 Insulation properties			
10.9.2 Power-frequency electric strength			Is the panel builder's responsibility.
10.9.3 Impulse withstand voltage			Is the panel builder's responsibility.
10.9.4 Testing of enclosures made of insulating material			Is the panel builder's responsibility.

10.10 Temperature rise	Not applicable.
10.11 Short-circuit rating	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.12 Electromagnetic compatibility	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.13 Mechanical function	The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

Technical data ETIM 6.0

Low-voltage industrial components (EG000017) / Accessories for low-voltage switch technology (EC002498)

Electric engineering, automation, process control engineering / Low-voltage switch technology / Low-voltage switch technology (accessories) / Component for low-voltage switch technology (accessories) (ecl@ss8.1-27-37-92-01 [AKN570010])

Type of accessory

Approvals

North America Certification UL/CSA certification not required
